President  
Jagan Nath University,  
Jaipur

It gives me pleasure to write the foreword for the Alumni Magazine “JU Alma Konnect”, the second edition of which is being launched on March 6, 2021 on the occasion of the Alumni Meet of the University.

Alumni are the real assets of any academic institution, whose growth brings a sense pride and satisfaction among the institution fraternity. We, at Jagan Nath University, wish sincerely for the well-being and professional growth of our alumni and would always strive for such interactions that are mutually beneficial in the present era of highly competitive market oriented environment.

Our Alumni Association is a registered body. This Magazine provides a common platform to get publish our articles, experience-sharing write-ups and start-up stories. I congratulate the Editorial Team members and contributors of papers for bringing out the second edition of the magazine.

The University has taken some initiatives towards streamlining the functioning of the Alumni Association, which include developing a separate portal at the website, opening a separate bank account, process for election of office bearers, etc. We invite you all to participate in alumni meetings in large number and take forward the agenda of the Association to a next level where we could work together for the academic growth of the future generations more effectively.

The alumni are its brand ambassadors of an institution. Their association helps academic institution to perform functions and achieving objectives effectively. They serve to motivate current students by guiding them towards right path and help university achieve higher goals. This magazine is of immense value in furthering the connection between the alumni and the alma mater.

While wishing our alumni a successful professional career, I would urge the alumni to remain connected with us and actively participate in developmental activities of the University by lending their expertise and experience in relevant areas.

## MESSAGE FROM THE DESK

**Prof. Vaishali Sharma**

Pro President  
Jagan Nath University,  
Jaipur

It is a matter of great pride and privilege to be part of Jagannath University fraternity that contributed as an alma mater in your precious lives. I feel the relationship between an alma mater and its alumnus is truly precious and creates the brand value of the institution. An alumnus, because of his/her achievement brings value to alma mater and in response to that the brand of the alma mater adds value to its graduates.

A highly successful and flourishing alumni base is always a hallmark for attainments of a Higher Education Institution. We can claim with huge pride that our alumni are positioned in both Public and Private sector within and outside India and many being highly successful entrepreneurs running their own companies.

I wish all the students of the university a brilliant future and also believe that they will become a role model for the for the coming generation.

## MESSAGE FROM THE DESK

**Mr. Tanmay Pattanayak**  
Registrar

It is a matter of great pleasure to convey my best wishes through this message to the Alumni Association of Jagan Nath University and Alumni who have participated in the very Important and remarkable event of Alumni Meet from time to time. The main objective of the association is to maintain the link between Institute and Alumni and share details of mutual growth, achievement and advancement in various fields. I am delighted to inform you all that we are coming up with our second issue of Alumni E-Magazine (JU Alma Konnect). The accomplishments and contributions of the Alumni have always been the best source of recognition of a University. Alumni are of course life-time achievements of the University whose backing is essential to prove the worth of academic excellence. When a student joins a University for mending his career, his relation with the University becomes ceaseless and eternal. The Alumni of Jagan Nath University are not away from this merit. The University is proud of its alumni and recognize the achievements made by them. We welcome our alumni to commemorate this very special day in the memory of their academic pursuit and expect that they would keep it alive. The association and affiliation with Jagan Nath University persists from the day you join to accelerate your mission and vision. The Jagan Nath University is affirmed to provide a good pace to you toward your bright future. Finally, I convey my best wishes for your future endeavors and urge you to be connected with us on regular interval of time.

## MESSAGE FROM THE DESK

**Dr. Jyotsana Sharma**  
Dean, Alumni

Greetings and warm wishes from Jagannath Family to all our Alumni, readers and well wishers. I know you all have been eagerly waiting for the latest edition of the alumni magazine “JU Alma Konnect” It gives me a sense of joy to pen down a few line from the Dean's desk.

There is nothing like returning to a place that remains unchanged to find the ways in which you yourself have altered, by this saying I am extremely honoured to welcome all the alumni of the university to this platform. I would like to praise the multiple facets played by you all in the society, for holding positions of major influence and playing important role in nation building at large.

Jagannath University has been nurturing young minds with the belief that you should “Be like a tree, stay grounded, connect with your roots return a new leaf, enjoy your uniqueness and keep growing”.

I would like to congratulate everyone involved in ensuring constant progress of the alumni cell, second edition of this magazine possible and organizing second reunion of all the alumni, Providing them an occasion for fond reminiscence of the glorious day spent here.

# INTERACTION WITH THE ALUMNI

**Mr. Ashish Sahadev**

MBA, Batch : 2009-11

Senior Manager, Financial Planning & Analysis, AU Bank Corporate Office

## **Tell us how life at Jagan Nath University helped you become the person you are and helped transitioned from a student to professional ?**

I still remember the first day at Jagan Nath University where I was so happy for the fact that it's a huge campus and will be utilizing majority of time towards sports. I was a teenager like others with raw blood and sky was the limit and with a feeling that I am much more superior in knowledge than any other in the college, however with the passing time all my false perceptions fumed away and got mesmerized with the knowledge of faculty members. I dragged down all my false ego's and started taking guidance from faculty members and within a short period of span I have started observing positive change in myself. They nourished me like a small plant and helped me growing into a strong tree to face all the storms which were waiting for me in the outside world. Everybody supported me immensely/guided me with the knowledge and psychological behavior change to be a true professional. Jagan Nath University has a major contribution in my journey of a teenager to a professional.

## **What skills does it require to become a successful professional ?**

**Determination and willpower :** Being a professional, one should have immense determination and willpower to sustain and excel in tough situations, taking too many decisions in the short time will reduce your decision-making ability.

For instance: Consider the journey of Yuvraj Singh (Cricketer) where he was so determined to come back to the field after one of the deadliest disease and with immense willpower he overcame all the odds and returned to the cricketing field.

**Make Goals :** One should always aim for a goal/target that what she or he wants to achieve because even a bullet is a sheer waste without the target. Plan and execute on smaller goals to achieve the bigger goal.

**Don't limit the knowledge :** Knowledge and skills are the tools that earn you an income and help you achieve career goals. Hence make it a priority to constantly expand your knowledge. Train yourself to learn from various circumstances and inculcate the habit of widening the knowledge reach through reading/watching/observing and don't hesitate to get yourself mentored wherever required.

**Inculcate the habit of asking questions :** Irrespective of the fact that you are an introvert or extrovert, ask as many questions as you can as it will help you increase the understanding about the subject and will enhance your thinking ability to provide a better solution.

**Don't work in Silos :** One has said that half knowledge is far more dangerous than no knowledge, hence one should not limit themselves to their own profile, always joins the dots between the related processes which your fellow colleagues are performing and take end to end understanding of the subject.

## **Job opportunities in my field.**

There is bag full of opportunities in Financial Planning and Analysis (FP&A) as irrespective of the industry barrier every organization does yearly budgeting & planning along with the cost/income analysis for which they always need the skillful hands throughout the year.

## **Leanings to be shared with students.**

The only key learning would like to share that hold on in the toughest situations/times of your professional as well as personal front and grow through from whatever you go through. Times will change and you will get your opportunity to excel and achieve your goals.

One last thought to share that as we believe its not the college name which helps us getting good opportunities, it's the good conduct of the students in the professional environment which helps college in building their goodwill.

# INTERACTION WITH THE ALUMNI

**Mr. Afzal Khan**  
**MBA, Batch : 2009-11**  
**Manager Retail Stores, Godrej**

**Q.1 Hello, how are you? Could you brief about work?**

Ans. I am good, enjoying life and hope everyone is safe out there. I have been working at Godrej Delhi, managing retail stores, handling various government projects in the field of welfare of the society.

**Q.2 Tell us how life at Jagan Nath University helped you the person you are?**

Ans. Life at Jagan Nath University is very close to my heart it's a life time experience for me, it's a journey of joy, learning, it yielded a path to become a better professional where my skill ,knowledge enhanced better than before either in the field of classroom study, sports and knowledge.

Time spent at campus Hostel room 60, Fourth floor near to canteen building will never forget it is a part of my life. Learning, enjoyment complete transition has been at that time developed, leadership skill being hostel representative, mess committee in-charge, Coordinator at various sports competition, participate various events organized by management not only passed with first division we did unlimited

enjoyment that we have no regret .At our time campus was known by management (Mgmt. MBA) Students.

The way our Faculty interacted with us in classroom, campus their coordination with the student was marvelous, they are the best of that time, teaches value which help to become a better person.

**(ALWAYS MISSED MY CAMPUS LIFE, IT WAS AWESOME)**

**Q.3 Transition from student to a professional, how does it take place?**

Ans. Transition from student to professional nearly same in both the field to be a successful person need discipline, hard work, dedication and respect to your mentor, whatever learnt implemented them in professional life to become better than before.

**Q.4 What skill according to you poses to become a successful professional?**

Ans. Good Listener, Positive Attitude, Hardworking, follow the guidelines suggested by mentor and organization.

**Q.4 Can you tell us about job opportunities in your field?**

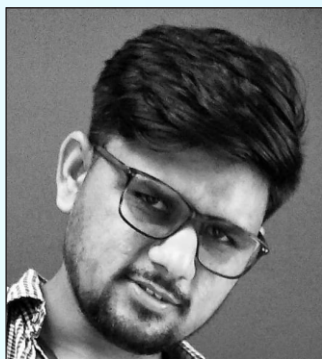

Ans. Yes, of course.

**Q.5 What learning would you like to share with the students?**

Ans. whenever your faculty mentor stating you saying something or suggesting you about your career follow it and implement it, in future nobody will teach about values and career.

# INTERACTION WITH THE ALUMNI

**Mr. Khushi Ram Yadav**  
MBA, Batch : 2009-11  
Senior Merchandiser -  
Mela Artisans, Inc.

## 1. Hello, How are you ? Could you please brief us about your work

Khushi - Hi, I am doing very well, Thank you !!

if I brief you about my work, my job profile is a responsible coordinator for Mela Artisans – we work with artisans all across India and provide them employment by selling their product to the biggest US retailers and boutiques. I work with craftsmen from different states, and of different backgrounds and techniques which go inline with the Indian aesthetic and convert these products into big volume orders. I coordinate between USA team and Artisans groups in India.

In this whole process I handle “S to S” (Sourcing to Shipment) function for Home décor products and furniture which Includes Sourcing, Product development, Merchandising, quality control as well as shipment plan with the help of different department and team members.

## 2. Tell us how life at Jagan Nath University helped you become the person you are?

Khushi - It has been helping me in many ways. In college, we learnt things theoretically and some of them with mock drill – Like , Group discussion , Presentation, F2F Interview drills

etc. So now in corporate world it has become regular and now i am in real war zone. So I have to respond quickly and responsibly without losing any time.

## 3. The transition from a student to a professional, How did it take place ?

Khushi - Student life in Master programme was like a pre final where we could do R&D and Improvement but now in professional life everything is like final exam.. You can say that there is no eraser, everything is written with pen. So before taking any decision I have to see pros and cons and my decision should be in favour of the company as well society and the craftsmen I work with. I am always trying to take decisions that will help the company and deliver results with efficiency and in time.

## 4. What skill according to you a student should posses to become a successful professional?

Khushi -Good listening skills, critical thinking, responsibility, accountability always eager to learn new things and improve while taking in critique positively. A student should learn to control his emotions while on the job and make sure that work is done smoothly without compromising on quality. A person should be aware of his agenda and develop strategies to achieve outcomes in the best possible ways.

## 5. Can you tell us about the job opportunities in your field?

Khushi -India has a huge workforce population that is delivering services in field like engineering, mechanics, craft, art and many more. Getting an MBA Degree gives you skills to be able to manage in companies that deal with the said workforce and help achieve success by keeping the machine running flawlessly. One can specialize in his passion and combine his management skills with deep knowledge of the industry, my field is mainly crafts and exports and there is a lot of opportunities in this area of work – from sourcing, designing, product development, merchandising, production controller, quality assurance, logistic controller etc. Super specialization in one area can help you become an important human resource and will increase your chances of getting hired in various companies.

## 6. What learning would you like to share with the students?

Khushi -A person should never underestimate his/her own power and trust in his/her abilities. They should always think positively and look for solutions to the problems that come up. Optimism combined with persistence goes a long way. Always give the best you can and be honest to yourself about how much you can improve.

**Chhajo Lal Saini**  
**BBA, Batch 2013-16**  
**Assistant Manager**  
**Yes Bank, Newai**

## Why did you choose to study at Jagannath University?

There were heaps of factors which led to me becoming a part of this prestigious university. The quality of education and the high career placement rate for example.

## How has your experience been so far?

In terms of experience, I might just run out of words. Everything in this world gives you an experience of life. It depends on how you take that experience forward and the way you execute it. Jagannath not only encourages me to be academically strong but also causes me to be a better person in life.

## What is the best thing about being at Jagannath University?

Jaipur is a peaceful city and it is away from the hustle and bustle that I have experienced in other cities of India. That is indeed the best part of being here.

## What do you think of the campus and the extracurricular activities?

It is hard to describe it in just a few words, so many things to say...; in short I will say Jagannath University has the best campus where all the facilities and services are available, nice accommodation, and nice atmosphere.

The extracurricular activities help student to expand their networks which is beneficial for finding career opportunities after graduation and Jagannath University is the only place where student can get all these.

## How did the university prepare you for your career?

The University prepares you for real life situation and job to solve complex problems, develop your communication skills to become a leader, to be confident, to face the professional world.

## What advice do you have if anybody wants to take admission in this university?

Explore every opportunity & face every challenge with the help of faculties which will ultimately help student to grow and learn.

# INTERACTION WITH THE ALUMNI

**Vinit Tanwar**  
**BBA, 2016-19**  
**Institute of Technology and**  
**Science, New Delhi**

I chose this University because it aims to serve the society and improve its quality of life by nurturing high-quality talent, providing excellent research and academic environment, consultancy services and promoting the dissemination of knowledge.

## 2.) What do you think of the University now?

Now, I feel the same as I felt earlier while taking admission in this University. This University gave me all the knowledge as it promised before taking admission in it. Those 3 years of BBA were amazing. I feel like reliving those moments.

## 3.) What do you think of the Campus and extracurricular activities?

The University Campus is really amazing with all the facilities one would want. Even the hostel is spacious and well maintained. There are many extracurricular activities which makes a student more confident and active.

## 4.) How did the University prepare you for your career?

This University gave me the opportunity of industrial visits, group discussions, extracurricular activities, etc which helped me to prepare myself for the future. In those 3 years, my personality was completely changed. I am grateful that I took admission in this University.

## 5.) What advice do you have if anybody wants to take admission in this University?

I would advise everyone to research about the course properly and then choose the course you want. Don't get pressurised by what others say. Just believe that you are taking admission in the top University and your future is in good hands.

**Dr. Ritu Khatri**  
**MPT - NEUROLOGY 2018-20**  
**Adventa super specialty**  
**Hospital , Rohtak**

**Q.1 Share your journey from a student of Jaga Nath University to become a successful physiotherapist ?**

A. The journey started when I completed my Bachelor of physiotherapy ,I decided to apply for Master, one random day I went through the Jagan Nath University Website, it is quite impact-full and soon I joined the University. In the initial days I missed my home and feeling lonely but with time my interaction with faculty and juniors increased and I started liking everything . Positive environment of university helped me in my personal and professional growth. These 2 years at Jaganath University were the best years concerning learning, experience and gaining exposure to fields relevant to my discipline. I will always thank full for my teachers and management of Jaganath University . Today I work with Adventa super specialty Hospital , Rohtak and I am really thankful Jaganath University .

**Q2.How do you rate the course that you have learnt in the college in relation to your current job ?**

University used to organized short courses and seminar on latest technology and Manual Therapy ,I would rate the course as 9/10 according to my experience but I must say that the course or physiotherapy technique I learned in this course are very much helpful and useful to me in my present job. Like many other students, I used to complain about college disciplined environment, hectic schedules for projects and workshops but now I realize that it was for my benefit & it has turned me into a better professional to survive in today's competitive environment.

**Q.3)Mention any 3 point which make you feel proud to be associate with JU as alumni?**

As the alumni of university I would love to put a light on positive side of university like

- 1) Highly qualified and supportive faculty
- 2) Time to time student feedback process
- 3) The rigorous curriculum prepared me to sustain the worst and outshine the best.

**Q.4) Which is your favorite memory from university ?**

It is well said that you value things when u don't have them this is very much true in my case as well. I have many beautiful memories but most favorite memory was fun filled celebration of Physiotherapy Day in 2019.

**Ar. Ajitabh Kar**  
**B.Arch. (2010-2015)**  
**Director, A.R Studio**

## WHY DID YOU CHOOSE THIS UNIVERSITY?

I choose this university because education exposes students to new research and technology. Education gives a chance to travel and experiences life and in this university I choose the architecture department because it's very creative. The idea to choose this university for my further education in B.Arch. Program is because of the state which is in Rajasthan, a state full of heritage icons and structures. I was finding a college where i can get more than an education. I also have listened about this university and facilities.

Besides all these facilities, I heard about this university that many batches have been passed and working in market. The campus location and the infrastructure facilities has always put boast in the mood and helped me to understand the architecture to the full.

## HOW JAGANNATH UNIVERSITY HAD HELPED YOU MAKING YOU A THE PERSON WHO YOU ARE NOW?

Life is like a roller coaster, full of twist and turn. Our college life was just exciting where we experienced ups and downs like being on a roller coaster ride. In Architecture College life is not easy. We need to be fully prepared to accept the challenges and tough situations thrown our way which made us tough enough to face the circumstances which life will throw upon us. The college life has taught us how to have faith in our ideas and to believe in oneself. It taught me to face the real world and strike back with all efforts to the adverse situations no matter what happens.

## SHARE YOUR JOURNEY FROM A STUDENT OF JAGANNATH UNIVERSITY TO BECOME AN ARCHITECT.

In the very beginning it was real frustrating. No clue where to start and where to end. Later on things became clearer same as we kept on walking down the road in foggy weather. Entire University was full of interaction with our teachers who always prepared me for the best and worst. They always encouraged me to focus and always remind me that there is never been any shortcuts for success in life.

I kept on following the codes taught by our teachers and now I see myself strong enough to bear any responsibilities in me like a good man. Now I serve for my family, my society, my town, and my nation. That kind of strong person I am now. No doubt the credit goes to all who helped me in putting my foundation stones, my parents, and my teachers.

**Aradhana Saxena**  
**B.Ed - 2018-20**  
**Faculty, IIS School**

**Q. Could you brief us about your work ?**

Ans. I am a teacher and have been into this profession for about 15 years. I teach junior and middle classes. Presently I am associated with India International School, Sitapura .

**Q.2 Why did you choose this University ?**

Ans. Jagan Nath University is a well known name in the field of education. The University has been contributing to the field of education for past many years and is a first choice for the aspirants of technical and professional courses. It offers a wide variety of courses and the state-of-the-art facilities. It provides hands-on experience to the students which gives students a cutting edge in comparison to the students of other universities.

**Q. How would you describe your classroom and your facilitators ?**

Ans. My classroom was a very happening place. It was very interactive and bustling with activities. The facilitators are masters of their subjects and provide a deep insight to the subject. They engaged us in a very conducive environment. I can even call them as my learning partners as they made the classroom academically rich and challenging.

**Q. What other things in the University helped you grow as a person?**

Ans. JaganNath University is located amongst the most ideal environs. It is peaceful, green vast and equipped with many facilities. The classrooms are large and airy. The furniture is ergonomic; there is audio and video connectivity for accessing internet resources, a well stacked library, a hygienic canteen and mess, computer labs, games and sports, workshops, guest lectures, webinars etc. for all round development. The campus is student friendly and ragging free, moreover all the staff members, administration and faculty are very helping and supportive. The seniors are very helpful and friendly.

**SHUDHANSU KUMAR**  
**B.TECH – M.TECH** (Integrated)  
**Civil (2011-2016)**  
**Founder and Director**  
**THE NAKSHA**

- **Tell Us About Yourself**

My name is Sudhansu Kumar , Founder and Director of The NAKSHA.

I have had my hands into multiple ventures in past few years. Some prospered and some failed but in a nutshell all this hard work has brought me closer to my ultimate motive of what I really want out of life.

- **Key Driving Force To Become An Entrepreneur**

There is no golden rule to become a successful Entrepreneur, because Success is journey not a destination. The aim has to be big, so that the motivation will be intact. Entrepreneur who have establish their empire on their own keep pushing the envelope of their capabilities.

- **How University Helped You In Your Personal And Professional Development**

University has been the opportunity of a lifetime and even that is an understatement. Forever grateful to my University for giving me the character I need to keep building the brain I need to keep expanding. I will treasure this for the rest of my life. I never imagined that I would be able to make as much progress as I have.

- **What Things Make You Feel Proud To Be Associated With Jagannath University As Alumni**

I feel extremely proud to be associated with Jagannath University because its one of the best universities in Jaipur which endowed its faculty and students with modern technologies, facilities and resources.

- **What Skills According To You A Student Should Possess To Become A Successful Professional**

The ability to think critically is must for future success in a changing world. It is about thinking independently, responsibly and productively.

Life is fluid – sometimes it's a stream, sometimes river and sometimes a tidal wave. Learn to keep your head above all of it.

# SUCCESS STORIES

**Bunty Tata**  
B.Sc Agriculture,  
Batch 2015-19  
Founder, Parijaat Nursery

I am graduate from Jagannath University session 2015-19. The university is just like a family with the opportunity of building life long friendships with people from different cultures and histories, having like-minded views. It adds that the practical experience which gained from the classes and internships during the time at Jagannath University was invaluable for starting a successful and sustainable career from day one after college.

From the very beginning, the idea of starting something of my own fascinated me but the question was what to do. I told my faculty about this and the suggestion that I received was that I should work on something that I am interested in. I have always been a nature lover so after completing the graduation from the University, thought why not work in this direction. After some research I planned to start a nursery. Under the guidance of faculty, I started my plant nursery. The name of my nursery is 'Parijaat Nursery' and it is in Jaipur at Jagatpura road. I am happy to share that my turnover is 50 lac per annum, Now I'm on the way of my dreams. I appreciate the caliber, diligence and enthusiasm of the faculty members at Jagannath and thanks them for a lifetime of memories.

**Sunil Sharma**  
B.Sc Agriculture,  
Batch 2014-18,  
Director  
India pest control facility

I have been the student of Jagannath University session 2014 to 2018. I am very proud and glad to be part of the university. There are various labs, lab technicians and also a well maintained library with all facilities. The faculty members were quite knowledgeable and support us in each and every aspect. Here not only academics but also there will be programmed like cultural activities and games there are various playgrounds we have enjoyed a lot. Here we were guided practically by the teachers, brightening us from time to time and making us the sole owner of our own company today.

During the years of my under graduation, while listening to the learned faculty members and visiting and reading about various startups I used to dream of having my own venture. I shared the idea of starting something of my own with my faculty and on their suggestion I tried to zoom in to the field I wanted to enter, I started collecting information about it. After searching a lot I decided to start a pest control facility. I started it two years back and today our company is working in all – India. Our company provides all kinds of pest control facility.

**Ar. Adil Khan**  
**B.Arch. (Batch 2009-14)**  
**Founder**  
**Architecture Design and**  
**Engineering Consultancy**

Ar. Adil Khan (Alumuni-1 Batch-2009-2014) from Department of Architecture and Planning, Jagannath university has always been into the real exposure and kept on polishing his architecture skills in the field in his Architecture carrier since 2014.

Completed his practical training and internship of a year with excellence Ar. Adil Khan kept on more focused in field of constructions and technologies which helped him in forming a best team as he has always been interested and was an expert entrepreneur. **Ar. Adil Khan (Batch 2009-2014)**

#### TEAM:

Along with the design experts and other technical support team, he put the foundation stone of his own Architecture design and engineering consultancy. Founded in Jaipur in 2015, team strives to impact people through places. No matter what project we're designing, we always aim to make a difference in the city's landscape. We envision spaces that will inspire people help them connect with one another and enrich the human experience. We do this by embracing the life, love and diversity of the city. Recognizing that every great design is the result of a combination of ideas, we're inspired by the dynamism of urban life. You'll be surprised by what we can do for you. We'd love to work with you on your next project.

**Architecture and Engineering team leaders**

#### SERVICES OFFERED:

Sustainable architecture:

Assign with its beauty and sustainability is the best. Whatever spaces are design it should retain its physical appearance its beauty and value by the passage of time. In fact time should add to its beauty and purpose. The space should itself have its own identity and should be fused in the context with surrounding. The composition of materials spaces must be in the context of the geographical location and design must retain its ethical and historical identity.

Product designing:

Design of various decor and other pieces of art which will add to aesthetic corners of your spaces and will add a great assurance of art and architecture. Various contextual and native style and use of material and texture in their natural way as they are is all ready to way up for your spaces of dreams. Few among all these of master pieces of the word we not only design a sell these pieces of art but we also know about the actual effort behind bringing the piece to you.

#### AWARDS AND ACHIEVEMENTS:

##### 1. CONCRETE DAY & CONSTRUCTION AWARD

By the end of the year 2020 Indian concrete institute along with the Rajasthan State center & Ultra tech cement limited organized a competition among various consultancy and architecture service providers and other professional from various fields of engineering and technology and architecture. Here on this platform this team got award for his expert solutions.

**Dr. Subhash Arya**  
**BPT/MPT- 2018-2020)**  
**KK Women and Children**  
**Hospital, Singapore**

Dr. Subhash Arya is a Kota based young Physio-Entrepreneur, honored with Kota's most Prominent award “Kota Ratn award” for his best services in Physiotherapy. He is also awarded with Best Physiotherapist of Rajasthan by Dr Ashish Mittal in SMS ,Jaipur .Subhash got his Postgraduate degree in Sports Physiotherapy from Jagannath University, Jaipur.

He started his career journey as Physiotherapist with Akansha Orthopedic & Maitri Multi specialty Hospital, Kota. He always wanted to do something for welfare of people so he did his Masters in Social work with Kota University and started a NGO 'EK PRYAS” in Kota and soon he started his own Physiotherapy center with the name Aayush Fitness Plus at Kota. As founder of Aayush Fitness Plus, together with his multi-disciplinary Kota-based team, he brings his philosophy to life. This means creating healthy environment for youths. Today Subhash is running 3 physiotherapy centers in Kota ,he established new avenues in fitness industry with his fitness center “Aayush” . During corona time subhash with his NGO has put so many effort for welfare of needy people. His services was recognized & awarded With “Corona Warrior Award 2019” by the Collector, Kota .

According to Subhash, the specialization in Sports increased his confidence a lot. Due to all this he was selected for KK Women and Children Hospital, Singapore with the monthly salary 5700 SGD (Rs.314,000). He did not joined because he always wanted to work with his community. He also paid his best services during Corona period. His services was recognized & awarded With “Corona Warier Award 2019”. Subhash is now working on launching his own “Sports Club” at Kota. He believes in “Work is Worship”

# ALUMNI EXPERIENCE

**Ankita Kumari**  
B.Ed. 2018-20

Hi, My name is Ankita kumari. I completed Bachelor of Education (B.Ed.) from Jagannath University, batch of 2018-20. I would like to say that the two years at Jagannath University were one of the best periods of my life. At Jagannath University, It always felt like a family, another home which helped me in my academic learning.

Beyond just an “Institution”, It actually denotes a “Culture”....Culture of excellence, empowerment and enrichment. Being a part of Jagannath University I felt blessed. The University has molded my personality and clarified my vision of the future. I am very grateful to the institute for providing guidelines and motivation to inspire me to achieve my goals. I am thankful to all faculty members of the collage for their continuous efforts and supports. The entire faculty and other members of this institution are very co-operative.

**Madni Ahamed Qadri**  
BBA - 2016-19  
Front Line Managers, ICICI Prudential

My Journey began in 2016, when I got Admission in Jagannath University. This admission was a turning point of my life. My entire college journey has been very memorable.

I completed my Bachelor's degree in Management. University faculty and staff members were extremely helpful and Cooperative. They helped me to sharpen my skills and motivated me to achieve my goals. The faculty members stood by me in my thick and thin.

The University gave broad exposure through International Conference and Seminars. I got my campus placement with ICICI Prudential and am currently working as front line managers with the same.

I am sincerely thankful to all my teachers. They are the pillars behind my success and even today are my guiding force. “Special Thanks to Smita Kaushik Mam”.

# ALUMNI EXPERIENCE

**Harjot Singh**  
BBA-2016-19  
Pursing MA  
(International Business)  
University of Middlesex, North London

Jagannath University has probably the best group, incorporating individuals from various corners of the country. It's significant that you're a piece of a solid group so you develop with the correct supportive gestures and the university gives you a lively stage to show your abilities and improve your capacities. The power of the climate gives a hopeful feel about the university, the framework being too amazing is one of the significant masters to the college's' notoriety.

BBA (Bachelor's in Business Administration) is one of the lofty courses that the university gives and has encouraged me in different approaches to ponder my vocation in the field of business. One thing should be clear; the university doesn't coddle you with anything. You're totally all alone and there's abundant opportunity tasks what you need, so understudies were encouraged to utilise their-time beneficially which I did as well. all the offices and resources of the university is monstrously useful and devoted to your assumptions , simply recollect you ought to be reliant on yourself to capitalise on the university and Jagannath university will most likely assist you with that.

**Honoria Samson**  
MBA, Batch 2011-2013  
(HR Professional )

Time at Jagannath University was really a lovely experience it was profoundly aided with outstanding and brilliant faculty. The place has a great balance of academics and extra-curricular activities. The support of the faculty members not only helped me to score good marks, but also helped me to overcome the flaws for being a good human being. They always motivated and encouraged me to face the risks and learn new things. I will always be thankful to my faculty members for making me a person I am today. I must say Jagannath university is one of the finest universities in its cadre and I feel proud to be a part of it. There are many things to say about the university including the outstanding infrastructure, huge campus, library, hostel area many more. To sum up, it gave me not only the best study experience ever but also gave me the privilege of learning about others cultures, beliefs and perspectives.

I urge future aspirants to be open to making mistakes, keen to learn and audacious to take advantage of all the opportunities that University offers. I wish this institution goes on doing great stuff and help students achieve their dreams.

# ALUMNI EXPERIENCE

**Nilesch Dhakar**

B.Ed. - 2018-20

“ The important reason for doing B.Ed from Jagannath University was that I wanted to live the experiences of teacher training in reality and I did B.Ed. In the 2 years of the experience / realization for which I had chosen this university. 2 years B.Ed. after doing this I felt that I had taken all the decisions by choosing this university.

I have struggled in life, never given up, strived tirelessly to achieve success, faced challenges, I learned everything from here. Initially, the administration here had seen where it came but after 2 years, when the result of this disciplinary attitude was achieved, it seemed that whatever happened to make my future. The conditions / discipline in which the Guru furnished me is made of gold by burning with the same fire.

The academic activities that are conducted in this university with the teacher-training actually creates a sanskritic, high personality which acts like icing on the cake for a teacher through this collaborative activities, the qualities of cooperation, competition, self-confidence are developed here.

Really, how good is the staff here?

Always stand with me in every problem, never let me be weak, just like the foundation of the house, always gave me a strength. The student is a reflection of the teacher but I would say that the teacher is the mirror of the student who introduces him to the reality of life and teaches him the art of living.

I would like to say to all students and students that Jagannath University is the best university for a better future, high quality education. Taking admission in it, you must take the real intention / experience of Education.

”

**Banwari Sharma**

M.Tech. (2016-2018)  
(Production Engineer,  
Genus Power Infrastructure Ltd.)

“ I am Banwari Sharma, I am working as Production Engineer at Genus Power Infrastructure Ltd. During my Master's degree at Jagannath University I learned many things which helped me out a lot in my career. I learned many technical aspects including research work in the field of electrical engineering specially related to power system.

I learned at how to work in team, I learned at how to perform better under pressure, I learned at how to achieve targets within given time limits. All are possible due to friendly atmosphere of university and the facilities provided to us.

I am thankful to my faculties and the management to groom my career skills.

”

# ALUMNI EXPERIENCE

**Abhishek C Patil**  
B.Tech. (ME) 2015-2019  
Design Engineer at VCF Industries.

Being Alumni, I always miss my University of being a student out there. As the University gave me so much of memories and better knowledge. In particular what I really loved so much was the support I've got from our faculties. With all the respect I thank them for their great guidance. Some incidents at the campus taught me to think beyond boundaries and out of the box. Being involved in extra curricular activities, it never felt like we were left behind. Apart from the academics, we learnt many life lessons which were must for the students. Being a part of events and international conference, I was able to enhance my knowledge with time management, situation handling techniques. Facilities were really appreciable as the University is also focusing on the mental and physical health of its students. Online conference, webinars, quiz would be going on all the time and I've attended some of them too. Faculties are surely supporting and students should interact with them, share their views and ideas as the way of conveying of faculties is remarkable for the betterment.

**Piyush Gupta**  
M.Tech (CSE) Batch: 2012-14

“A University should be a place of light, of liberty, and of learning.” -Benjamin Disraeli-  
A University is one of the best places where we can develop skills, implement new ideas, share our views, think about new possibilities and so on. Jagannath University gives us a platform where we can do a lot in the domain of Technology. I joined Jagannath University in August 2012. Here I was pursuing my Masters of Technology degree in the domain of Computer Science & Engineering. My two years in University passed very soon. Even now I miss those days.

“Technology is just a tool. In terms of getting the kids working together and motivation them, the teacher is the most Important” -Bill Gates-

All professors of the University are well qualified and having good technique of teaching. I express profound gratitude to All Faculties for their best direction specially in my last year of thesis and also thankful to all supporting staff including Administration, Technical, Library, as they are very co-operative.

All things are good in terms of Infrastructure, Library, Canteen, Locality, Transportation, and Greenery. I fully enjoyed my University life.

Overall, I must say that Jagannath University is a ray of hope for future scientific and technological needs and if an Individual wants to make career in an Engineering field, this University will be considered as one of the best education institute in the region.

## RAJA KUMAR

B.Tech ME (2014-18)

Claim Manager

Shriram general insurance company ltd.

It's been an immense pleasure to share my thoughts regarding the four years of my B.tech days. JaganNath University has molded me to learn, grow and succeed in my professional career and in being a good human being by providing exposure to great young talents and highly experienced group of faculties. Time to time inter and intra University events gave me the opportunity to grow my self confidence and enhance my soft skills. I worked with Essar Steel Industries and currently I am working as a claim Manager at SGI where I need to verify the losses in accidental vehicles and I am very happy here to be as a person of value for my company and thank full to my university for that value addition. All great faculties especially Avinash sir and Rakesh sir for those automobile lab work from which I have been directly benefitted in my professional career.

In last I would only say that Jagan Nath University is the best place for Mechanical Engineers to be a good professional since it provides all the required infrastructure, progressive and innovative environment to face the real world personal and professional challenges.

## Akshita Gautam

M.Tech. CS (2017-19)

IT Engineer

Mangalam Arts, Jaipur

“More important than any specific facts you may memorize at college is the development of a thirst for knowledge and the skills necessary to learn more in the future.”

I opted for this University because of its academics, highly qualified faculties who are always ready to help their students. University offers various extracurricular activities for holistic personality development of students. It gives hands-on exposure through regular practical and training programmes.

Whatever little I have achieved in my life and career so far, my education from “Jagannath University” has been a major catalyst to it.

It was gained knowledge and wisdom which made me get my career start very well. Joining an educational NGO followed by an export house company for IT department shows how well the University, its faculties and our education program developed me for my career.

**Reema Bhatia**  
Ph.D (CSE) 2019  
Lecturer & Program Leader  
in MDIS, Singapore

Hi, I am Dr. Reema Bhatia Singh - Phd, Mtech, CEH, CHFI (EC Council), EC Council Certified Trainer, Lecturer & Program Leader in MDIS Singapore. I have been a versatile lecturing experience with Asian and western Universities.

I am thankful to the Jagannath University, my guide Dr. Renu Bagoria; co-guide Dr. Barjesh Kochhar for their support they provided me during my Ph.D. It is the good University for Research and higher education.

The coordinator Dr. Vivek Sharma and the staff is so cooperative.

It was an awesome journey!

**Parth Parashar**  
B.Sc Agriculture  
Batch 2016-20

Jagannath University has been a notable contributor to the improvement of my overall personality. I have mounted my leadership skill, time management, and crew competencies and feature additionally been capable of improving those skills to an entirely new level. The excellent component about the University is the cross-culture interaction among college students from numerous parts of the country. The professors here make the university what it is today. With an attitude of being ever ready to help and not only delivering lecture room teachings but however, they are also the pillars of the studying received from this esteemed university and this is a treasure for life. Jagannath University is also a place for learning, fun, history, lore, literature and many activities that preach life.

We had cultural events and activities lined up throughout the year which was a major boon. We also had a sports competition which has further helped me in my overall development. Studying at University has brought value to my life. It gave us the chance to meet people of all sorts and learn a variety of things.

# ALUMNI EXPERIENCE

**Ms. Srija Reddy**

B.Sc. Agriculture  
Batch 2016-20

“ My name is M.Srija Reddy. I did my Graduation in B.Sc. Agriculture from Jagannath University Jaipur. I am very proud and glad to be part of the institution. There are various labs, lab technicians and also a well maintained library with all facilities. The faculty members were quite knowledgeable and support us in each and every aspect. Our hostel is amazing and the wardens and Management has been very supportive and caring. As I am from South India, I felt like my home there. I am very much thankful to whole Management. I wish a very great success for coming students. ”

**Shubham Sharma**

B.Sc. Agriculture  
Batch - 2015-19

“ Hi, I am an alumni of 2019 batch from Jagannath University, this period of 4 years was not just a college degree for me but one of the incredible experiences that I ever had in my life along with quality education. I got all round personality development and sweetest unforgettable memories, and before coming to the University, I was so sacred with few of my own thoughts such as ragging, environment at campus and homesickness but when I came in the university hostel I found that there is no such scenario of ragging here, as University has its anti ragging cell and it really works well and I always felt like home in the campus as the nature of hostel wardens and all the faculty was very friendly and nice, I met different students from different states in the university campus and made a lot of friends too and for those 4 years we studied, played, laughed cried together. The campus offered a variety of activities to do there such as nearly all kind of indoor and outdoor games are available such as basketball ball, table tennis etc. ”

**Geetanjali Singh**  
BBA LLB 2011 Batch  
Practicing Lawyer

2020 showed us how unpredictable life could get. I appreciate team Jagannath University for taking the initiative to hold a e-alumni meet and bring us together through a virtual platform to share our thoughts. At outset I submit my condolence to the family and friends who lost their loved ones untimely. The pandemic hard hit the education sector as well. However, it also provided chance to bring the much-needed reforms in education policy and practices so as to aspire to become a Vishwa Guru again. It is important for students who had the privilege to utilize the resources of the society, to not let their degrees remain just a 'qualification' but use this very powerful tool to give back to the society again. Since learning knows no boundaries. Need of the hour is that we as a professional use the acquired knowledge, skills and aptitude to bring more equality, justice, harmony and prosperity to this nation and contribute in building Aatmanirbhar-Bharat. Success is assured when passion meets discipline. Though, not every endeavor brings the desired results but what it will surely bring is a lesson. Institutions and degrees must not remain as mere artifacts in the new paradigm and there has to be a utility in what we are delivering for one thing has been made very clear in the last year that not all tests are from the syllabus we have been mugging up since years and surely there can be no substitute to new ideas, innovations and evolution.

**Dr. Deveshi Pallavi Bhat**  
Associate prof. & HOD  
Department of Computer Application  
M.Tech (CSE) 2016-18

## Digital Movement in India and Need of Cyber Security

With the era of Digital India Movement, a cashless future looks worthy attractive. Digital India is a programme to transform India into a digitally empowered society and knowledge economy. The focus is on being transformative to realize the better India Tomorrow (IT) by using Information Technology (IT). BUT putting the digitalization without building the required infrastructure is like assembling the cart before the horse. Cyber security leaves us vulnerable to Cyber Attacks due to lack of proper precautions and security policies. After digital movement, Security has become a heavy concern for the security experts and authorities like never before. Cyber Security is defined as a protection of network physically and digitally. Cyber Security is process and practices designed to protect the data exchange over the internet. Ensuring it includes: Application Security, Information Security, Network Security, Disaster Recovery/ Risk Management, Operational Security and Educating End Users. The biggest challenge in achieving this, is the quickly changing nature of risks and threats. In India, a huge population is still residing in rural areas and they lack in cyber literacy and awareness, even people residing in urban areas are also not much literate about it. We are dealing with hackers and malwares over the internet and as transactions will increase threat will also increase especially when the money transactions are involved. Cyber criminals take the advantage of new technology to design attacks and threats to the Indian financial market. Security trained task force, Cyber law, Campaign of creating awareness among the End-Users and Robust Infrastructure needs to be planned crucially while evolving more in this direction. Manipal University, Jaipur

**SHUDHANSU KUMAR**  
B.TECH – M.TECH(Intergrated), Civil (2011-2016)  
Founder and Director, THE NAKSHA

## Spur Dikes Design for prevent the erosion of riverbanks

Spur dikes (or groynes) are structures constructed projecting from a bank to protect the bank from erosion. These are widely used for the purpose of river training and serve one or more of the following functions

- Training the river along a desired course by attracting, deflecting (or repelling) and holding the flow in a channel. An attracting spur creates deep scour near the bank; a deflecting spur shifts deep scour away from the bank, and a holding spur maintains deep scour at the head of the spur.
- Creating a zone of slack flow with the object of silting up the area in the vicinity of the spur.
- Protecting the river bank by keeping the flow away from it

These structures may either be impermeable or permeable so as to allow some flow parallel to the bank but at a low enough velocity to prevent erosion and / or encourage sediment deposition. Care needs to be exercised in the use of spurs to ensure that they do not simply transfer erosion from one location to another, or initiate unforeseen changes in the general channel morphology.

### Spurs Requirements

The requirements of a spur are:

- Optimum alignment and angle consistent with the objective.
- Availability of a high river bank to anchor (or tie) the spur back, by extending it into the bank a sufficient distance to avoid it being outflanked.
- Sufficient freeboard provision (in case of non-submerged spurs).
- Adequate protection to nose/head against anticipated scour.
- Shank protection with stone pitching and stone apron for the length which is vulnerable to flow attack

## SAVE WATER AND SAVE LIFE

Water covers 70% of earth's surface but in that only 3% of water is clean and suitable for human consumption. Water has a very important role to play in our daily life. According to a survey, the average family of four members, uses 450 litre of water per day, 1,64,000 litres of water per year. If it is continued in future we are going to face water wars. To avoid this we have to save water for the coming generations.

Some Important Tips to Save Water at Home :

Turn off the tap when you brush your teeth which can save 6 litres of water per minute.

Place a cistern displacement device in your toilet cistern to reduce the volume of water used in each flush.

Take a shorter shower. Shower can use any thing between 6 and 45 litres per minute.

Fix a dripping tap. A dripping tap can save 15 litres of water a day or 5500 litres of water a year.

Install a water butt to your drain pipe and use the water collected to water your plants, wash your windows or cars.

Water your garden with a watering can rather than a hose pipe. A hose pipe uses 1,000 litres of water an hour.

Watering the plants in the early morning and late afternoon will reduce evaporation and also save water.

Repair dripping faucets by replacing washers. If your faucet is dripping at the rate of one drop per second, you can expect to waste 2,700 gallons per year which will add to the cost of water and sewer.

Invest in water-efficient goods when you need to replace house hold products. You can now buy water – efficient shower heads, taps, toilets, washing machines, dish washers and many other water saving products.

Verify that your home is leak-free, because many homes have hidden water leaks. Read your meter before and after a two-hour period when no water is being used. If the meter does not read exactly the same, there is a leak.

When adjusting water temperature, instead of turning water flow up, try turn it down. If the water is too hot or cold, turn the offender down rather that increasing water flow to balance the temperatures.

So please. save water and save life.

And save water, secure your future
